Dear Friend:

If you had a chance to help local officials determine how to invest over \$2.8 billion dollars on the region's transportation system between now and 2035, what priorities should be established for use of those funds?

That's the essence of an important series of public town hall forums slated for June by the Tri-County Regional Planning Commission as we update our regional long range transportation plan to 2035.

While that sounds like a lot of money, it is well short of the investment needed for operations, maintenance and improvements over the next thirty years, so your ideas about priorities are extremely important to help guide choices about these local investment decisions.

Registration information on these important town hall forums (June 9 and 11) is contained in this brochure. Please register and attend so your "voices and votes" may be considered as part of this process.

Residents of Clinton and Eaton Counties should attend Tuesday, June 9 at LCC West and residents of Ingham County should attend Thursday, June 11 at the East Lansing Hannah Community Center.

Should you have questions or concerns about this process, please contact me or my staff at (517) 393-0342 or 1-800-619-6676. I'm looking forward to your participation at one of these work sessions.

Sincerely,

Jon W. Coleman
