Mr. Paul Hamilton  
Tri-County Regional Planning Commission  
913 W. Holmes Road - Suite 201  
Lansing Michigan 48910

Re: Transportation Improvement Program (TIP) Amendment – Washington Avenue from Main Street to Barnes Street Project  
Clippert Street from Grand River Avenue to Saginaw Street Project

Dear Mr. Hamilton:

This letter is to request an amendment to the current TIP to adjust our 2012 projects. Our Clippert Street project will not be ready for construction in 2012 due to unresolved design concerns with the geometrics of Clippert Street at the intersection of Grand River Avenue. We would like to move the Clippert Street project to the illustrative list so that the STP project funding (\$275,000) can be used to increase our Washington Avenue project.

The Washington Avenue project limits have been expanded to include one block of Main Street (recently renamed Malcolm X Street) and one block of a local street (South Street) adjacent to the project. The project scope has been expanded to include sanitary sewer rehabilitation on Washington Avenue, the local street reconstruction on South Street (both 100% City costs), and the TCSP roadside facility (streetscape) grant. Force account work will include signal and crossing upgrades at the Canadian National railroad crossing.

The TIP amendment request is summarized on the following page.

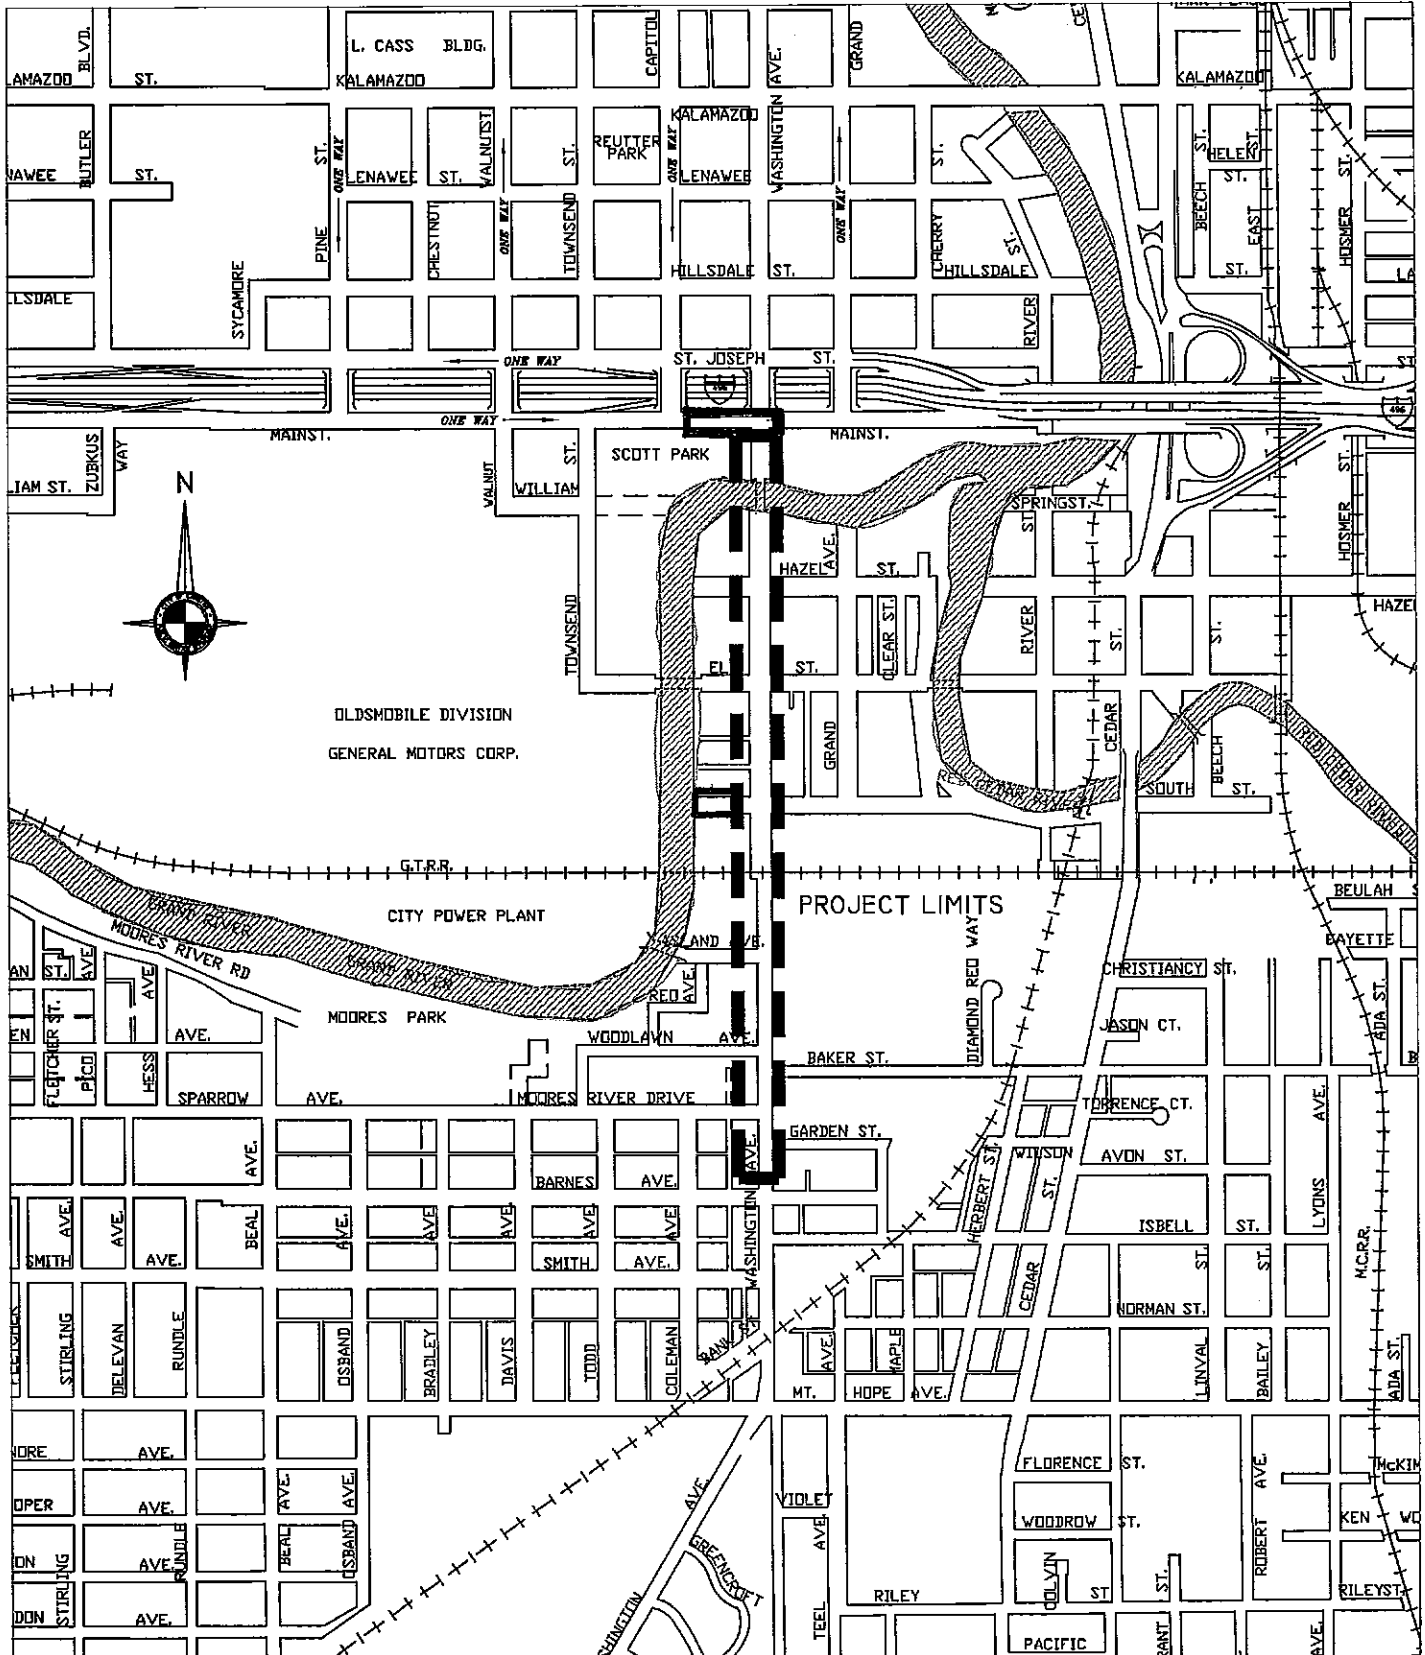

Please do not hesitate to contact me with any questions regarding this project. Thank you for your assistance in this matter.

Sincerely,  
  
Jane Dykema, P.E.  
Assistant City Engineer

IIB. TIP Amendment\_Illustrative List\_CATA

September 16, 2011

Mr. Paul Hamilton  
Chief Transportation Planner  
Tri-County Regional Planning Commission  
913 W. Holmes Rd., Suite #201  
Lansing, MI 48910

Dear Mr. Hamilton:

CATA is requesting to add a project to the illustrative list in the Transportation Improvement Plan ("TIP"). CATA applied for a Clean Fuels Grant to fund the purchase of nine (9) mini-hybrid fan kits. The mini-hybrid fan kits will be installed in existing hybrid buses. The kits offer better fuel economy, lower maintenance costs, and improved emissions. When CATA is awarded the Clean Fuels Grant, we will request an administrative amendment to move this project into the financially constrained TIP.

<b>Clean Fuels Grant</b>	<b>Federal</b>	<b>State</b>	<b>Total</b>
9 Mini-Hybrid Fan Kits	\$108,000	\$27,000	\$135,000

If you have any questions about this project, please do not hesitate to call me.

Sincerely,

Debra W. Alexander  
Assistant Executive Director

Final - 07/18/11

1. All bridge projects (bridge replacement and major rehabilitation regardless of funding) require a Type, Size and Location (TS&L) submittal.
2. For projects that may require an Environmental Assessment, the Program Application and supporting documents must be submitted to LAP at least one year prior to advertisement date.
3. For reconstruction (4R) projects on the National Highway System (NHS) and over \$5,000,000 in total cost, submit Plans, Proposal, and Estimate to LAP at least two weeks prior to the dates shown in this guide.
4. Final date that all MDOT requested revisions are to be received by MDOT LAP, so that all modifications identified during the final plan review can be incorporated.
5. \* : Date adjusted due to holiday. ! : Earlier turn in date due to busiest lettings. ^ : Tentative Date
6. Schedule is based on requirements for letting projects through E-Proposal and ProjectWise
7. M- Monday, T-Tuesday, W- Wednesday, TH- Thursday, F- Friday
